Formal announcement of French acceptance and details of French reservations apparently were reserved by the sub-committee of fifteen for the full naval committee of the conference, called to meet on Thursday. The sub-committee did break its silence sufficiently, however, to publish the messages exchanged by Secretary Hughes and Premier Briand which led up to the action of the French delegation. The messages were read and discussed by the sub-committee, but the official communique disclosed no more than the texts of the cablegrams.

The Premier's message showed that reservations attached to acceptance of the 175,000 capital ship tonnage had to do with "light cruisers, torpedo boats and submarines." This has served to bring the conference to a standstill until the submarine issue can be solved, when the five-power capital ship

Woman's Bluff Traps Burglar

Housewives, take heart! The Christmas menu may be spread this year at prices actually lower than those a year ago. Turkey is here in abundance, as are also fatted geese, fatted ducks and chickens, and the "fixings" are proportionately plentiful and cheaper, with the exception of cramberries, which are both scarce and high.

Turkeys were being sold yesterday by some retail chain stores at 50 cents a pound. Other retailers are holding out for higher prices on the ground that having laid in their supply of gobblers when wholesale prices were several cents more than they are now, they are justified in charging 55 to 58 cents a pound for their best quality fowl.

It is predicted, however, that the turkey market will be still lower by Christmas Day. The best grade of turkey market will be still lower by Christmas Day.
